

Dr. Janet Lapp

Keynote speaker ... Psychologist ... Flight Instructor

Thriving during Fast Change

For over 20 years, Dr. Janet Lapp has been delivering a strong message of boldness and risk-taking to leaders throughout the world, from Russia to Argentina. Takeaways are a formula to thrive during fast change and action plans to work/live at the next level.

Live at the Edge: How to Excel During Fast Change

Everyone is a leader. Do not sit back with the excuse that you were not told. Keep moving forward.

Lead at the edge; the middle is grey and crowded. Whether you are leading a company or a team, or building and expanding your own business, success today means thinking and leading others in new and unexplored ways. This inspirational business program will push you to the edge of what's possible.

You will know the formula for smart risk-taking, and hear how organizations have broken the mold and pushed the edges. Double both your success and your fun during fast change.

"Dr. Janet flies at the edge. She can do things with her airplane and her audiences that take my breath away, and I have flown inverted at 500mph under the Chain Bridge in Budapest."

**Frank Versteegh,
Red Bull Airrace Pilot**

"Dr. Janet's Thriving with Fast Change program was refreshing, humorous, serious, thought-provoking, appropriately 'intense', one of the best if not the best, we have seen in our whole IBM careers." IBM Canada
